// Food packaging that fits into a modern sustainable society: that is Ace Packaging's core business.

Governments and consumers are becoming increasingly demanding in terms of sustainability, recyclability and energy efficiency. Plenty enough reasons to choose an experienced partner who thinks about the right packaging for your product, working in collaboration with you.

Ace Packaging is the right partner for the packaging of all kinds of food. An extensive range of take-away packaging, suitable packaging for fruit and vegetables, bread, pastries and meat products. The extensive range is guaranteed to offer a sustainable and innovative packaging solution that creates an ecological and professional appearance for your product.

Our driving force? Innovation and sustainability. Together with you, we break new ground and develop innovative packaging products from A to Z. The proof: our various patents for innovative products and developments that are entirely in line with our customers' needs."

## Biodegradable packaging: PFAS-free pulp packaging

“People are increasingly adapting their behavior to the climate issue. This increases the demand for renewable, recyclable and biodegradable packaging. In this regard, Ace Packaging’s pulp range offers a versatile solution. Our PFAS-free pulp packaging is made from the remains of the sugarcane harvest (bagasse) and is biodegradable in 90 days. This pulp range is both fat- and water-resistant.”

## 100% mono- paper window bag

**A future proof solution!**

The future of packaging is circular and Ace Packaging is continuously exploring new designs and technologies to make this a reality. We are making great strides with the launch of the mono paper window bag. As this window bag consists of only one material, it is easier to recycle. The highly transparent paper window ensures a very clear product presentation.

Moreover, the bags are very strong because they consist of one piece - no additional gluing required for the window! The window can be designed as desired. The bags can be fully printed for a unique branding of your product.

**MONO MATERIAL**  
**RECYCLABLE**  
**LESS CO2 EMISSION**  
**ZERO WASTE**  
**COMPOSTABLE**
